EXPERIENCE

Software Development Engineer, Flipkart

📅 Feb 2021 – Present   📍 Bangalore

- Working on feature related to event efficiency and optimization of user path for pricing and promotion
- Main Responsibility:- To be part of all stages of the software development lifecycle, starting from requirement gathering stage till deployment (Coding and discussion taking a major amount of time).
- Received Instant Karma and Team award for having due diligence in work, as well as delivering features in a short amount of time with quality. Impact:- GMV more than 12Cr.

Software Development Engineer, Jio

📅 Nov 2020 – Feb 2021   📍 Hyderabad

- Contributed on Jio Health Hub Web Application Product
- Main Responsibility:- Take ownership for feature, gather requirements, take design decision, code, do code review and deliver the product in best quality within deadline

Research Application Analyst, CLSA

📅 July 2018 – Nov2020   📍 Pune

Event Management application (Caltrain)

- Worked on implementing CRUD operation for both user and admin panel
- Delivered a single interface to manage all events, taking feedback, reminder mails as well as headcount(Register vs Waitlist) for event.
- Awarded Star Award for simplifying events managment

Full Stack Performance Testing Application(FLASH)

- Tech Stack:- Spring Boot(Java) + Angular, Impact: Reduce 1 manpower.
- Developed pumping of messages using multithreading
- Implemented REST API endpoints which controlled the application
- Front End:- Designed scheduling panel, monitoring panel and history panel (Angular)

Corporate Communication Symphony Chat bot

- Worked on scheduling RESTful call using Java Maven, implementing command based chat bots for group messages
- Traget Audience:- all CLSA employees(2000) Benefits:- Simple way to share news with all employees, Received appreciation

Logs Monitoring Dashboard

- Designed Kibana dashboard to monitor nginx logs of websites
- Impact:- Helped in resolving the performance issue in website as well as budgeting aws services

SKILLS

Data Structure and Algorithms
C++   Core Java   Python
Spring Boot/Dropwizard   Junit
REST API   MYSQL   Kafka
Datbase Schema Design
Apache Storm(Distributed Real Time)
Multithreading   Microservice
Elasticsearch(datastore/searching)
Low Level System Design   Git
Docker & Kubernetes

PROFILE LINK

LinkedIn   Scaler   Portfolio
Github   CodeChef   Hackerrank
Hackerearth   Codeforces
Leetcode

ACHIEVEMENT

Instant Karma and Team award in Flipkart
Won Star Award in CLSA for Q1 2020
Among top 3 in Scaler Jan batch
Open Source Contribution(**pycon 2020**))
Won State level project competition in BE
IEEE(**Brain Controlled Wheelchair**)

EDUCATION

BE Computer Science

Pune University

📅 2014—2018   📍 Pune,IN

- First Class with Distincition (Result:-77.4) (Top 5 in College)

CBSE 12th and 10th

📅 2012 – 2014   📍 Airoli, MH

- Computer Science Major in 12th, Result:- 90.4
- 10th Result:- 93.6
