

SHUBHAM SINGHAL

Senior Backend Engineer | Distributed Systems

@shubhamsinghal.coder@gmail.com

+91 7208277045

Bangalore, Karnataka, Pin:- 560035

SUMMARY

Senior Backend Engineer with **7+ years of experience** owning and scaling **distributed, event-driven systems** in high-impact consumer platforms. Proven ability to take systems from ambiguous requirements to **production-ready architectures**, balancing performance, reliability, and long-term maintainability. Experienced in driving architectural changes, partnering with product, and growing toward **technical leadership**.

EXPERIENCE

Senior Software Engineer, Uber

June 2022 – Present

Bangalore

- Owned **core backend services** for a content decisioning platform, supporting **3K+ QPS per endpoint** and multiple downstream consumers.
- Led **migration** from batch-based processing to an **event-driven architecture**, reducing end-to-end latency by **99%**.
- Took features from **ambiguous problem statements** through system design, implementation, rollout, and long-term ownership.
- Acted as a **technical owner** by influencing design decisions, mentoring engineers, and leading incident response for critical services.
- Proactively introduced AI-assisted development workflows** (e.g., Cursor, Claude) to improve developer productivity and influenced team-wide adoption through practical usage and knowledge sharing.
- Tech:** Go, Kafka, Stream Processing, gRPC/Thrift, Kubernetes

Software Development Engineer II, Flipkart

Feb 2021 – Jun 2022

Bangalore

- Built **event-driven pricing and promotion systems** in collaboration with product and business stakeholders.
- Delivered backend features contributing to **USD 1.5M+ annual revenue impact**.
- Recognized with **Instant Karma & Team Award** for strong ownership and production-quality delivery.

Software Development Engineer, Jio

Nov 2020 – Feb 2021

Hyderabad

- Owned end-to-end backend development for the **Jio Health Hub** web platform.

Research Application Analyst, CLSA

July 2018 – Nov 2020

Pune

- Built and owned an internal **event management platform** and a **company wide communication chatbot** used by **2,000+ employees**.
- Awarded **Star Award (Q1 2020)** for impact and execution.

SKILLS

Distributed Systems

Backend Architecture

Event-Driven Systems

System Design

Go

Java

Python

Kafka

Stream Processing

gRPC / REST

Docker

Kubernetes

Incident Response

Technical Mentorship

ACHIEVEMENTS

Top 25 Interviewer at Uber

Instant Karma Award – Flipkart

Star Award – CLSA (Q1 2020)

Recognized for technical ownership and me

EDUCATION

BE CS, Pune University

2014–2018

Pune, IN

- First Class with Distinction (77.4%, Top 5 in College)

CBSE 12th

2012–2014

Airoli, MH

- Computer Science Major in 12th, Result: 90.4%
- 10th Result: 93.6%
